

Web Application Report

This report includes important security information about your web application.

Security Report

This report was created by HCL AppScan Standard 10.6.0
Scan started: 11/29/2024 9:28:52 AM

Table of Contents

Introduction

- General Information
- Login Settings

Summary

- Issue Types
- Vulnerable URLs
- Fix Recommendations
- Security Risks
- Causes
- WASC Threat Classification

Issues Sorted by Issue Type

- Blind SQL Injection 4
- NoSQL Injection 1
- API Mass Assignment 2
- Integer Overflow 5
- Link to Non-Existing Domain Found 2
- Check for SRI (Subresource Integrity) support 110
- Cookie with Insecure or Improper or Missing SameSite attribute 30
- Missing Secure Attribute in Encrypted Session (SSL) Cookie 28
- SHA-1 cipher suites were detected 1
- Unsafe third-party link (target="_blank") 33
- Weak Cipher Suites - ROBOT Attack : Vulnerable cipher suites are supported by the server 1
- Weak Ciphers are detected: Not all cipher suites support Perfect Forward Secrecy 1

Introduction

This report contains the results of a web application security scan performed by HCL AppScan Standard.

Critical severity issues:	5
High severity issues:	9
Medium severity issues:	204
Total security issues included in the report:	218
Total security issues discovered in the scan:	432

General Information

Scan file name:	Novanthealth.org_HCLScans_November_2024
Scan started:	11/29/2024 9:28:52 AM
Test policy:	VMP AppScan Default
CVSS version:	3.1
Test optimization level:	Fast

Host	www.novanthealth.org
Port	443
Operating system:	Unknown
Web server:	Unknown
Application server:	Any

Host	www.novanthealth.org
Port	80
Operating system:	Unknown
Web server:	Unknown
Application server:	Any

Remediation Task		Number of Issues	
H	Avoid using functions that automatically bind client's input to code variables or internal objects.If applicable, explicitly define and enforce schema's for the input data payloads.	2	
H	Ensure user input is of the correct type and escape it properly	1	
H	Remove the non-existing domain from the web site	2	
H	Review possible solutions for hazardous character injection	4	
H	Verify that parameter values are in their expected ranges and types. Do not output debugging error messages and exceptions	5	
M	Add the 'Secure' attribute to all sensitive cookies	28	
M	Add the attribute rel = "noopener noreferrer" to each link element with target="_blank"	33	
M	Add to each third-party script/link element support to SRI(Subresource Integrity).	110	
M	Change server's supported ciphersuites	3	
M	Review possible solutions for configuring SameSite Cookie attribute to recommended values	30	

Risk		Number of Issues	
C	It is possible to view, modify or delete database entries and tables	5	
H	API Mass Assignment exploitation may leads to privilege escalation, data tampering, bypass of security mechanisms	2	
H	It is possible to gather sensitive debugging information	5	
H	It is possible to persuade a naive user to supply sensitive information such as username, password, credit card number, social security number etc.	35	
M	In case the third-party server is compromised, the content/behavior of the site will change	110	
M	Prevent cookie information leakage by restricting cookies to first-party or same-site context, Attacks can extend to Cross-Site-Request-Forgery (CSRF) attacks if there are no additional protections in place (such as Anti-CSRF tokens).	30	
M	It may be possible to steal user and session information (cookies) that was sent during an encrypted session	28	
M	It may be possible to steal or manipulate customer session and cookies, which might be used to impersonate a legitimate user, allowing the hacker to view or alter user records, and to perform transactions as that user	3	

Cause		Number of Issues	
C	Sanitation of hazardous characters was not performed correctly on user input	5	
	API endpoints are vulnerable to Mass Assignment if they automatically converts client provided data into internal object properties without considering the sensitivity and the exposure level of these properties.	0	

H	API endpoints are vulnerable to Mass Assignment if they automatically convert client provided data into internal object properties without considering the sensitivity and the exposure level of these properties.	2	
	An Integer Overflow (or wraparound) occurs when a value that is too large is stored (larger than the maximum value the variable can hold) in an integer data type (including byte, short, long, and other types). The most significant bits of the integer are lost, and the remaining value is relative to the minimum value (either 0 or very negative value for signed types).	0	
H	Proper bounds checking were not performed on incoming parameter values	5	
H	No validation was done in order to make sure that user input matches the data type expected	5	
H	The web application contains a link to a non-existing domain	2	
	There is no support to Subresource Integrity.	0	
M	SRI (Subresource Integrity) not supported	110	
M	Sensitive Cookie with Improper or Insecure or Missing SameSite Attribute	30	
M	The web application sends non-secure cookies over SSL	28	
M	The web server or application server are configured in an insecure way	3	
	The rel attribute in the link element is not set to "noopener noreferrer".	0	
M	The page that is linked to with the target=_blank link gains partial access to the linking page window object via the window.opener object	33	
	Cipher Suites that support TLS-RSA key exchange were detected. The web server or application server with TLS implementation flaw may be vulnerable to ROBOT Attack. This issue does not necessarily mean that you are vulnerable. Please follow the advisory guideline.	0

Issues Sorted by Issue Type

Issue 1 of 4

TOC

Blind SQL Injection	
Severity:	Critical
CVSS Score:	9.4
CVSS Vector:	AV:N/AC:L/PR:N/UI:N/S:U/C:H/I:H/A:L/E:X/RL:X/RC:X/CR:X/IR:X/AR:X/MAV:X/MAC:X/MPR:X/MUI:X/MS:X/MC:X/MI:X/MA:X
URL:	https://www.novanthealth.org/api/locations/autocomplete
Entity:	input (Parameter)
Risk:	It is possible to view, modify or delete database entries and tables
Cause:	Sanitation of hazardous characters was not performed correctly on user input
Fix:	Review possible solutions for hazardous character injection

Reasoning: The test result seems to indicate a vulnerability because it shows that values can be appended to parameter values, indicating that they were embedded in an SQL query. In this test, three (or sometimes four) requests are sent. The last is logically equal to the original, and the next-to-last is different. Any others are for control purposes. A comparison of the last two responses with the first (the last is similar to it, and the next-to-last is different) indicates that the application is vulnerable.

Issue 2 of 4

Link to Non-Existing Domain Found

Severity:	High
CVSS Score:	8.2
CVSS Vector:	AV:N/AC:L/PR:N/UI:N/S:U/C:L/I:H/A:N/E:X/RL:X/RC:X/CR:X/IR:X/AR:X/MAV:X/MAC:X/MPR:X/MUI:X/MS:X/MC:X/MI:X/MA:X
URL:	https://www.novanthealth.org/for-patients/billing--insurance/health-insurance/accepted-insurance-plans/
Entity:	http://www.eastpointe.net/ (Link)
Risk:	It is possible to persuade a naive user to supply sensitive information such as username, password, credit card number, social security number etc.
Cause:	The web application contains a link to a non-existing domain
Fix:	Remove the non-existing domain from the web site

Reasoning: AppScan found a link to an external site, and was not able to resolve it

Raw Test Response:

Check for SRI (Subresource Integrity) support

Severity:	Medium
CVSS Score:	5.3
CVSS Vector:	AV:N/AC:L/PR:N/UI:N/S:U/C:L/I:N/A:N/E:X/RL:X/RC:X/CR:X/IR:X/AR:X/MAV:X/MAC:X/MPR:X/MUI:X/MS:X/MC:X/MI:X/MA:X
URL:	https://www.novanthealth.org/services/virtual-care/community-based-virtual-care/
Entity:	(Page)
Risk:	In case the third-party server is compromised, the content/behavior of the site will change
Cause:	SRI (Subresource Integrity) not supported
Fix:	Add to each third-party script/link element support to SRI(Subresource Integrity).

Reasoning: The third-party links/scripts don't have integrity attribute for the browser to confirm they didn't compromised

Raw Test Response:

Check for SRI (Subresource Integrity) support

Severity:

Medium

CVSS Score: 5.3

CVSS Vector: AV:N/AC:L/PR:U/UI:N/S:U/C:L/I:N/A:N/E:X/RL:X/RC:X/CR:X/IR:X/AR:X/MAV:X/MAC:X/MPR:X/MUI:X/MS:X/MC:X/MI:X/MA:X

URL: <https://www.novanthealth.org/healthy-headlines/this-nicu-mom-switched-careers-to-help-parents-navigate-difficult-pregnancies>

Entity: this-nicu-mom-switched-careers-to-help-parents-navigate-difficult-pregnancies (Page)

Risk: In case the third-party server is compromised, the content/behavior of the site will change

Cause: SRI (Subresource Integrity) not supported

Fix: Add to each third-party script/link element support to SRI(Subresource Integrity).

Reasoning: The third-party links/scripts don't have integrity attribute for the browser to confirm they didn't compromised

Raw Test Response:

```

Check for SRI (Subresource Integrity) support

Severity: **Medium**

CVSS Score: 5.3

CVSS Vector: AV:N/AC:L/PR:N/UI:N/S:U/C:L/I:N/A:N/E:X/RL:X/RC:X/CR:X/IR:X/AR:X/MAV:X/MAC:X/MPR:X/MUI:X/MS:X/MC:X/MI:X/MA:X

URL: <https://www.novanthealth.org/for-providers/refer-a-patient/>

Entity: (Page)

Risk: In case the third-party server is compromised, the content/behavior of the site will change

Cause: SRI (Subresource Integrity) not supported

Fix: Add to each third-party script/link element support to SRI(Subresource Integrity).

Reasoning: The third-party links/scripts don't have integrity attribute for the browser to confirm they didn't compromised

Raw Test Response:

```

Risk:	In case the third-party server is compromised, the content/behavior of the site will change
Cause:	SRI (Subresource Integrity) not supported
Fix:	Add to each third-party script/link element support to SRI(Subresource Integrity).

Reasoning: The third-party links/scripts don't have integrity attribute for the browser to confirm they didn't compromised

Raw Test Response:

Check for SRI (Subresource Integrity) support

Severity:	Medium
CVSS Score:	5.3
CVSS Vector:	AV:N/AC:L/PR:N/UI:N/S:U/C:L/I:N/A:N/E:X/RL:X/RC:X/CR:X/IR:X/AR:X/MAV:X/MAC:X/MPR:X/MUI:X/MS:X/MC:X/MI:X/MA:X
URL:	https://www.novanthealth.org/newsroom/novant-health-announces-new-three-tiered-strategy-to-address-disparities-in-maternal-and-infant-health
Entity:	novant-health-announces-new-three-tiered-strategy-to-address-disparities-in-maternal-and-infant-health (Page)
Risk:	In case the third-party server is compromised, the content/behavior of the site will change
Cause:	SRI (Subresource Integrity) not supported
Fix:	Add to each third-party script/link element support to SRI(Subresource Integrity).

Reasoning: The third-party links/scripts don't have integrity attribute for the browser to confirm they didn't compromised

Raw Test Response:

Check for SRI (Subresource Integrity) support

Severity:	Medium
CVSS Score:	5.3
CVSS Vector:	AV:N/AC:L/PR:N/UI:N/S:U/C:L/I:N/A:N/E:X/RL:X/RC:X/CR:X/IR:X/AR:X/MAV:X/MAC:X/MPR:X/MUI:X/MS:X/MC:X/MI:X/MA:X
URL:	https://www.novanthealth.org/healthy-headlines/yes-you-can-get-covid-and-flu-vaccines-together
Entity:	yes-you-can-get-covid-and-flu-vaccines-together (Page)
Risk:	In case the third-party server is compromised, the content/behavior of the site will change
Cause:	SRI (Subresource Integrity) not supported
Fix:	Add to each third-party script/link element support to SRI(Subresource Integrity).

Reasoning: The third-party links/scripts don't have integrity attribute for the browser to confirm they didn't compromised

Raw Test Response:

```

Check for SRI (Subresource Integrity) support

Severity: Medium

CVSS Score: 5.3

CVSS Vector: AV:N/AC:L/PR:N/UI:N/S:U/C:L/I:N/A:N/E:X/RL:X/RC:X/CR:X/IR:X/AR:X/MAV:X/MAC:X/MPR:X/MUI:X/MS:X/MC:X/MI:X/MA:X

URL: <https://www.novanthealth.org/healthy-headlines/heres-what-young-adults-should-know-about-the-alarming-rise-in-early-onset-colorectal-cancers>

Entity: heres-what-young-adults-should-know-about-the-alarming-rise-in-early-onset-colorectal-cancers (Page)

Risk: In case the third-party server is compromised, the content/behavior of the site will change

Cause: SRI (Subresource Integrity) not supported

Fix: Add to each third-party script/link element support to SRI(Subresource Integrity).

Reasoning: The third-party links/scripts don't have integrity attribute for the browser to confirm they didn't compromised

Raw Test Response:

```

Check for SRI (Subresource Integrity) support

Severity: Medium

CVSS Score: 5.3

CVSS Vector: AV:N/AC:L/PR:N/UI:N/S:U/C:L/I:N/A:N/E:X/RL:X/RC:X/CR:X/IR:X/AR:X/MAV:X/MAC:X/MPR:X/MUI:X/MS:X/MC:X/MI:X/MA:X

URL: <https://www.novanthealth.org/healthy-headlines/4-realizations-3-recipes-around-healthier-holiday-meals>

Entity: 4-realizations-3-recipes-around-healthier-holiday-meals (Page)

Risk: In case the third-party server is compromised, the content/behavior of the site will change

Cause: SRI (Subresource Integrity) not supported

Fix: Add to each third-party script/link element support to SRI(Subresource Integrity).

Reasoning: The third-party links/scripts don't have integrity attribute for the browser to confirm they didn't compromised

Raw Test Response:

```

Check for SRI (Subresource Integrity) support

Severity:	Medium
CVSS Score:	5.3
CVSS Vector:	AV:N/AC:L/PR:N/UI:N/S:U/C:L/I:N/A:N/E:X/RL:X/RC:X/CR:X/IR:X/AR:X/MAV:X/MAC:X/MPR:X/MUI:X/MS:X/MC:X/MI:X/MA:X
URL:	https://www.novanthealth.org/newsroom/releases-20241113
Entity:	releases-20241113 (Page)
Risk:	In case the third-party server is compromised, the content/behavior of the site will change
Cause:	SRI (Subresource Integrity) not supported
Fix:	Add to each third-party script/link element support to SRI(Subresource Integrity).

Reasoning: The third-party links/scripts don't have integrity attribute for the browser to confirm they didn't compromised

Raw Test Response:

```
...

Check for SRI (Subresource Integrity) support

Severity:	Medium
CVSS Score:	5.3
CVSS Vector:	AV:N/AC:L/PR:N/UI:N/S:U/C:L/I:N/A:N/E:X/RL:X/RC:X/CR:X/IR:X/AR:X/MAV:X/MAC:X/MPR:X/MUI:X/MS:X/MC:X/MI:X/MA:X
URL:	https://www.novanthealth.org/healthy-headlines/do-you-need-probiotics
Entity:	do-you-need-probiotics (Page)
Risk:	In case the third-party server is compromised, the content/behavior of the site will change
Cause:	SRI (Subresource Integrity) not supported
Fix:	Add to each third-party script/link element support to SRI(Subresource Integrity).

Reasoning: The third-party links/scripts don't have integrity attribute for the browser to confirm they didn't compromised

Raw Test Response:

```

Check for SRI (Subresource Integrity) support

Severity:	Medium
CVSS Score:	5.3
CVSS Vector:	AV:N/AC:L/PR:N/UI:N/S:U/C:L/I:N/A:N/E:X/RL:X/RC:X/CR:X/IR:X/AR:X/MAV:X/MAC:X/MPR:X/MUI:X/MS:X/MC:X/MI:X/MA:X
URL:	https://www.novanthealth.org/newsroom/resources/search
Entity:	search (Page)
Risk:	In case the third-party server is compromised, the content/behavior of the site will change
Cause:	SRI (Subresource Integrity) not supported
Fix:	Add to each third-party script/link element support to SRI(Subresource Integrity).

Reasoning: The third-party links/scripts don't have integrity attribute for the browser to confirm they didn't compromised

Raw Test Response:

```
...

<link rel="stylesheet" href="https://cdnjs.cloudflare.com/ajax/libs/normalize/8.0.1/normalize.min.css"

Check for SRI (Subresource Integrity) support

Severity: **Medium**

CVSS Score: 5.3

CVSS Vector: AV:N/AC:L/PR:N/UI:N/S:U/C:L/I:N/A:N/E:X/RL:X/RC:X/CR:X/IR:X/AR:X/MAV:X/MAC:X/MPR:X/MUI:X/MS:X/MC:X/MI:X/MA:X

URL: <https://www.novanthealth.org/healthy-headlines/sugar-shutdown-healthy-fats>

Entity: sugar-shutdown-healthy-fats (Page)

Risk: In case the third-party server is compromised, the content/behavior of the site will change

Cause: SRI (Subresource Integrity) not supported

Fix: Add to each third-party script/link element support to SRI(Subresource Integrity).

Reasoning: The third-party links/scripts don't have integrity attribute for the browser to confirm they didn't compromised

Raw Test Response:

```

Cookie with Insecure or Improper or Missing SameSite attribute

Severity: Medium

CVSS Score: 4.7

CVSS Vector: AV:N/AC:L/PR:L/UI:N/S:U/C:L/I:L/A:N/E:U/RL:O/RC:C/CR:X/IR:X/AR:X/MAV:X/MAC:X/MPR:X/MUI:X/MS:X/MC:X/MI:X/MA:X

URL: <https://www.novanthealth.org/>

Entity: iv (Cookie)

Risk: Prevent cookie information leakage by restricting cookies to first-party or same-site context, Attacks can extend to Cross-Site-Request-Forgery (CSRF) attacks if there are no additional protections in place (such as Anti-CSRF tokens).

Cause: Sensitive Cookie with Improper or Insecure or Missing SameSite Attribute

Fix: Review possible solutions for configuring SameSite Cookie attribute to recommended values

Reasoning: The response contains Sensitive Cookie with Insecure or Improper or Missing SameSite attribute, which may lead to Cookie information leakage, which may extend to Cross-Site-Request-Forgery(CSRF) attacks if there are no additional protections in place.

Entity:	mp_eventQueue (Cookie)
Risk:	Prevent cookie information leakage by restricting cookies to first-party or same-site context, Attacks can extend to Cross-Site-Request-Forgery (CSRF) attacks if there are no additional protections in place (such as Anti-CSRF tokens).
Cause:	Sensitive Cookie with Improper or Insecure or Missing SameSite Attribute
Fix:	Review possible solutions for configuring SameSite Cookie attribute to recommended values

Reasoning: The response contains Sensitive Cookie with Insecure or Improper or Missing SameSite attribute, which may lead to Cookie information leakage, which may extend to Cross-Site-Request-Forgery(CSRF) attacks if there are no additional protections in place.

URL:	https://www.novanthealth.org/
Entity:	tglr_sess_id (Cookie)
Risk:	Prevent cookie information leakage by restricting cookies to first-party or same-site context, Attacks can extend to Cross-Site-Request-Forgery (CSRF) attacks if there are no additional protections in place (such as Anti-CSRF tokens).
Cause:	Sensitive Cookie with Improper or Insecure or Missing SameSite Attribute
Fix:	Review possible solutions for configuring SameSite Cookie attribute to recommended values

Reasoning: The response contains Sensitive Cookie with Insecure or Improper or Missing SameSite attribute, which may lead to Cookie information leakage, which may extend to Cross-Site-Request-Forgery(CSRF) attacks if there are no additional protections in place.

Missing Secure Attribute in Encrypted Session (SSL) Cookie

Severity:	Medium
CVSS Score:	6.5
CVSS Vector:	AV:N/AC:L/PR:N/UI:N/S:U/C:L/I:L/A:N/E:X/RL:X/RC:X/CR:X/IR:X/AR:X/MAV:X/MAC:X/MPR:X/MUI:X/MS:X/MC:X/MI:X/MA:X
URL:	https://www.novanthealth.org/
Entity:	ai_user (Cookie)
Risk:	It may be possible to steal user and session information (cookies) that was sent during an encrypted session
Cause:	The web application sends non-secure cookies over SSL
Fix:	Add the 'Secure' attribute to all sensitive cookies

Reasoning: AppScan found that an encrypted session (SSL) is using a cookie without the "secure" attribute.

Original Response

```

Missing Secure Attribute in Encrypted Session (SSL) Cookie

Severity: **Medium**

CVSS Score: 6.5

CVSS Vector: AV:N/AC:L/PR:N/UI:N/S:U/C:L/I:L/A:N/E:X/RL:X/RC:X/CR:X/IR:X/AR:X/MAV:X/MAC:X/MPR:X/MUI:X/MS:X/MC:X/MI:X/MA:X

URL: <https://www.novanthealth.org/>

Entity: __mp_opt_in_out_7e3ff947 (Cookie)

Risk: It may be possible to steal user and session information (cookies) that was sent during an encrypted session

Cause: The web application sends non-secure cookies over SSL

Fix: Add the 'Secure' attribute to all sensitive cookies

Reasoning: AppScan found that an encrypted session (SSL) is using a cookie without the "secure" attribute.

Original Response

```

SHA-1 cipher suites were detected 1

TOC

SHA-1 cipher suites were detected

Severity:	Medium
CVSS Score:	5.3
CVSS Vector:	AV:N/AC:L/PR:N/UI:N/S:U/C:L/I:N/A:N/E:X/RL:X/RC:X/CR:X/IR:X/AR:X/MAV:X/MAC:X/MPR:X/MUI:X/MS:X/MC:X/MI:X/MA:X
URL:	https://www.novanthealth.org/Util/Find/epi-util/find.js
Entity:	www.novanthealth.org (Page)
Risk:	It may be possible to steal or manipulate customer session and cookies, which might be used to impersonate a legitimate user, allowing the hacker to view or alter user records, and to perform transactions as that user
Cause:	The web server or application server are configured in an insecure way
Fix:	Change server's supported ciphersuites

Reasoning: AppScan determined that the site uses weak cipher suites by successfully creating SSL connections using each of the

weak cipher suites listed here.

Verify that the site uses the cryptographically weak cipher suites listed here.

The following weak cipher suites are supported by the server:

Id	Name	SSL Version
47	TLS_RSA_WITH_AES_128_CBC_SHA	TLS 1.2
53	TLS_RSA_WITH_AES_256_CBC_SHA	TLS 1.2
49161	TLS_ECDHE_ECDSA_WITH_AES_128_CBC_SHA	TLS 1.2
49162	TLS_ECDHE_ECDSA_WITH_AES_256_CBC_SHA	TLS 1.2
49171	TLS_ECDHE_RSA_WITH_AES_128_CBC_SHA	TLS 1.2
49172	TLS_ECDHE_RSA_WITH_AES_256_CBC_SHA	TLS 1.2

Unsafe third-party link (target="_blank") 33

TOC

Unsafe third-party link (target="_blank")

Severity:	Medium
CVSS Score:	5.3
CVSS Vector:	AV:N/AC:L/PR:N/UI:N/S:U/C:L/I:N/A:N/E:X/RL:X/RC:X/CR:X/IR:X/AR:X/MAV:X/MAC:X/MPR:X/MUI:X/MS:X/MC:X/MI:X/MA:X
URL:	https://www.novanthealth.org/
Entity:	(Page)
Risk:	It is possible to persuade a naive user to supply sensitive information such as username, password, credit card number, social security number etc.
Cause:	The page that is linked to with the target=_blank link gains partial access to the linking page window object via the window.opener object
Fix:	Add the attribute rel = "noopener noreferrer" to each link element with target="_blank"

Reasoning: The third-party links with target="_blank" attribute and no rel="noopener noreferrer" attribute allows linked page partial access to the linking page window object

Raw Test Response:

```

t may also include prescription drug coverage, with extra benefits. Private insurance companies offer these plans and must
follow rules set by Medicare. In most cases, you'll get your care and services from doctors, other healthcare
providers or hospitals in the plan's network. However, you have the flexibility to seek care out of network. But that
care is usually for a higher copay.

<h2>Why enroll in a Medicare Advantage plan?</h2>
<p>A Medicare Advantage plan provides all the Part A and Part B benefits of Original Medicare, plus additional benefits.
Most Medicare Advantage plans have a $0 monthly premium. This plan includes coverage for dental, vision, hearing and much
more. Part D prescription drug benefits are also included, so there's no need to pay for a separate prescription drug
plan.</p>
<h2>Who can help me select the right plan?</h2>
<p>The State Health Insurance Assistance Program (SHIP) can help. It provides local, in-depth and objective insurance
counseling and helps Medicare-eligible individuals, their families and caregivers.</p>
<p>Visit ShipHelp.org or call <a href="http://877-839-
2675">877-839-2675 to find trained people in your community who can help you select a plan and enroll. It's free.
Most of these groups are available to meet in-person.</p>

<p style="text-align: left;">Our online price estimator tool helps patients by displaying the out-of-pocket prices
associated with many of the common procedures and services we offer. This is a helpful tool but please know it is not an
exact, personalized cost figure. The best way to understand what you will pay for care is to work with your health
insurance provider and our dedicated Financial Navigator Team.</p>
<h2 style="text-align: left;">Get started.</h2>
<p style="text-align: left;">To get startedwith our online price estimator, please choose one the service
area where you will be receiving care:</p>

**Reasoning:** The third-party links with target="\_blank" attribute and no rel="noopener noreferrer" attribute allows linked page partial access to the linking page window object

#### Raw Test Response:

```

...

</p> <p align="start">
 Pudney is a boulderer. He climbs on rock formations (or artificial rock walls) <i>without</i> ropes or harnesses. Most
 often, he goes to Inner Peaks, which is local, and to the North Carolina mountains with bouldering buddies. "Bouldering
 focuses on shorter, more powerful movements than roped climbing," he said. "You rarely go higher than 15 or 20 feet, and
 you have crash pads and spotters instead of ropes to catch your fall."
</p> <p align="start">

```

```

</p> <p align="start">
 Still, all climbing comes with risks. "Climbing has a reputation as a dangerous sport-and rightfully so," according to a
 2019 article in <i>
 Outside</i> magazine. "Last year, 204 accidents resulting in 210 injuries and 22 deaths were
 reported." <i><i> </i></i></i></i>By comparison, avalanche deaths among skiers in the U.S. average around 15 per year.
</p> <p align="start">

</p> <p align="start">
 Pudney loves it for the physical and <i>mental</i> challenges it poses. "It's like a puzzle you solve with your body," he
 said.
</p> <p align="start">

</p> <p align="start">
 So, when he started experiencing numbness in his right foot last March, he chalked it up to a climbing injury. His foot
 felt cold all the time, but it wasn't interfering with his life, so he ignored it and kept walking, hiking and climbing.

...

...

 Pudney had surgery on May 7, 2023. "His surgery - specifically, a gross total resection (GTR or complete removal,) of the
 tumor - took place at
 Novant Health Presbyterian Medical Center. Some people with schwannoma tumors opt for chemo and radiation
 rather than surgery, Berry-Candelario said. But because of the size and location of Pudney's tumor, those weren't options.

</p>
</div>
 <div class="column clearfix">
 <div class="simplebox simplebox-right">
 <h4>Top scores for safety in NC</h4> <p align="start">
 Novant Health received <a href="https://www.novanthealth.org/newsroom/novant-health-recognized-as-the-safest-health-care-
 system-in-north-carolina-by-the-leapfrog-group" title="http://">the most 'As' for patient safety in North Carolina from
 The Leapfrog Group. With a focus on safety, quality and patient experience, the national, industry-leading nonprofit,
 evaluates and assigns <a href="https://www.hospitalsafetygrade.org/" target="_blank"
 title="https://www.hospitalsafetygrade.org/">letter grades ranging from A to F to hospitals across the country. Novant
 Health's hospitals with "A" grades outperform 70% of hospitals nationwide for safety and quality.
 </p>
 </div>
 <p align="start">
 A GTR is "as complex as neurosurgery gets," Berry-Candelario said. "It's a high-wire act.
 You're operating on the spinal cord, but you have to protect the spinal cord. I always tell patients there's a risk of
 neurological compromise, and it could be major."
 </p> <p align="start">

</p> <p align="start">
 But surgery went smoothly - Berry-Candelario was able to remove the entire tumor - and Pudney did remarkably well. He's in
 peak physical condition and has a lot of family support.

 Why does every visit to a doctor's office include a blood pressure check? Because high blood pressure can wreck your life
 or even kill you.
 </p> <p align="start">

 </p> <div><figure class="cbuilder-img figure clearfix figure-left"><img data-
 id="65a037eb3d63321d...
 ...e - Whiteville and Shannon Emmanuel, vice president of community impact for the American Heart Association
 (AHA), recently held a news briefing to...

 </p> <p align="start">
 It's an urgent topic because hypertension is incredibly common. One-third of all Americans have the condition, and fully
 half of them aren't aware they have it, said Calhoun. Here are highlights from...
 </p> <p align="start">

 </p> <h3>Defining the issue </h3> <p align="start">
 Simply put, having high blood pressure means your blood is pumping through your arteries with more force than is normal.
 That's risky because your heart has to work overtime to pump blood at that hig

 ...

 ...

 "The silent killer" is an apt synonym for hypertension. An estimated 10 million people worldwide are killed each year due
 to health conditions that stem from it.
 </p> <p align="start">

 </p> <p align="start">
 It can damage your heart and kidneys, lead to a stroke or aneurysm, cause vision problems, contribute to memory loss and
 dementia, and lead to atherosclerosis, the condition of arteries being clogged with fatty deposits.
 </p> <p align="start">

 </p> <h3>How do you know? </h3> <p align="start">
 Hypertension is sneaky. It's often present without any symptoms. The only way to know if you have it is by
 measuring your blood pressure.
 </p> <p align="start">

 </p> <p align="start">
 A few people with hypertension may have headaches, shortness of breath, lightheadedness and/or nosebleeds, but those don't
 typically appear until the condition has reached a severe stage.
 </p> <p align="start">

 </p> <h3>Pregnant women at risk </h3> <p align="start">
 Pregnant women are more likely to develop hypertension. It's common in postpartum women, as well.
```

```

</p> <p align="start">
...
...
</p> <p align="start">
</p> <p align="start">
Hypertension screening for pregnant women is an essential part of prenatal care. Severe or uncontrolled hypertension
during pregnancy can lead to complications for mom and unborn baby, including preterm labor.
</p> <p align="start">
</p> <p align="start">
A serious condition called preeclampsia can happen during pregnancy. It's "<a
href="https://medlineplus.gov/ency/article/000468.htm" title="https://medlineplus.gov/ency/article/000468.htm"
target="_blank">high blood pressure and signs of liver or kidney damage that occur in women after the 20th week
of pregnancy," according to the <a href="https://medlineplus.gov/ency/article/000898.htm"
title="https://medlineplus.gov/ency/article/000898.htm" target="_blank">National Institutes of Health (NIH)
. While it is rare, preeclampsia may occur in a woman after delivering her baby, most often within 48 hours.</p> <p
align="start">
</p> <p align="start">Preeclampsia is also stealthy. Subtle symptoms can include swelling of the hands and face or areas
around the eyes, and sudden weight gain over a day or two, or more than 2 pounds a week.
</p> <p align="start">
</p> <p align="start">
Testing for preeclampsia includes a physical exam as well as blood and urine tests. "Preeclampsia usually resolves within
six weeks after the baby is born and the placenta is delivered," the NIH states. "However, it may persist longer or even
begin after delivery."</p><p align="start"></p><h3>Combating the enemy</h3> <p align="start">
...
...
</p> <p align="start">
Have your blood pressure checked <i>at least</i> every two years starting at age 18. Some people - like those with a
family history of hypertension - need more frequent checks.
</p> <p align="start">
</p> <p align="start">
When you're at your primary care team's office, ask about your blood pressure reading. If it's elevated, ask what steps
you can take to lower it naturally.
</p> <p align="start">
</p> <p align="start">
Calhoun will typically give a patient three months to try to get it down on their own before she'll discuss medication.
Diuretics, beta blockers and calcium channel blockers are amon

## Unsafe third-party link (target="\_blank")

Severity:	Medium
CVSS Score:	5.3
CVSS Vector:	AV:N/AC:L/PR:N/UI:N/S:U/C/L/I:N/A/N/E:X/RL:X/RC:X/CR:X/IR:X/AR:X/MAV:X/MAC:X/MPR:X/MUI:X/MS:X/MC:X/MI:X/MA:X
URL:	<a href="https://www.novanthealth.org/healthy-headlines/beating-incurable-one-mans-battle-against-cancer">https://www.novanthealth.org/healthy-headlines/beating-incurable-one-mans-battle-against-cancer</a>
Entity:	beating-incurable-one-mans-battle-against-cancer (Page)
Risk:	It is possible to persuade a naive user to supply sensitive information such as username, password, credit card number, social security number etc.
Cause:	The page that is linked to with the target=_blank link gains partial access to the linking page window object via the window.opener object
Fix:	Add the attribute rel = "noopener noreferrer" to each link element with target="_blank"

**Reasoning:** The third-party links with target="\_blank" attribute and no rel="noopener noreferrer" attribute allows linked page partial access to the linking page window object

### Raw Test Response:

Weak Cipher Suites - ROBOT Attack : Vulnerable cipher suites are supported by the server		
Severity:	Medium	
CVSS Score:	6.5	
CVSS Vector:	AV:N/AC:L/PR:N/UI:N/S:U/C:L/I:L/A:N/E:X/RL:X/RC:X/CR:X/IR:X/AR:X/MAV:X/MAC:X/MPR:X/MUI:X/MS:X/MC:X/MI:X/MA:X	
URL:	<a href="https://www.novanthealth.org/Util/Find/epi-util/find.js">https://www.novanthealth.org/Util/Find/epi-util/find.js</a>	
Entity:	www.novanthealth.org (Page)	
Risk:	It may be possible to steal or manipulate customer session and cookies, which might be used to impersonate a legitimate user, allowing the hacker to view or alter user records, and to perform transactions as that user	
Cause:	The web server or application server are configured in an insecure way	
Fix:	Change server's supported ciphersuites	

**Reasoning:** AppScan determined that the site uses weak cipher suites by successfully creating SSL connections using each of the weak cipher suites listed here.

Verify that the site uses the cryptographically weak cipher suites listed here.

The following weak cipher suites are supported by the server:

Id	Name	SSL Version
47	TLS_RSA_WITH_AES_128_CBC_SHA	TLS 1.2
53	TLS_RSA_WITH_AES_256_CBC_SHA	TLS 1.2
60	TLS_RSA_WITH_AES_128_CBC_SHA256	TLS 1.2
61	TLS_RSA_WITH_AES_256_CBC_SHA256	TLS 1.2
156	TLS_RSA_WITH_AES_128_GCM_SHA256	TLS 1.2
157	TLS_RSA_WITH_AES_256_GCM_SHA384	TLS 1.2
